

Braided Cotton Rolls

DIAMETERS:
small | medium | large

LENGTHS:
3/4" | 1-1/2" | 4" | 6"

4.6

Over the years, Richmond Dental & Medical has continually provided the highest quality Braided Cotton Roll; this superb product has become the preferred choice of dental professionals. Our attention to creating the best dental roll has resulted in a product with superior absorbency, flexibility and comfort.

- Does not stick to mucosa. The 100% cotton braided roll is held together with silky yarn instead of chemicals (which cause the roll to stick to mucosa), resulting in ultimate comfort for the patient.
- Unique wicking action provides a drier field and outstanding durability as our Braided Rolls absorb up to 30% faster.
- Made with purified medical-grade cotton
- Innovative flexible design for a secure fit into the buccal curvature and the sublingual space.
- Infection control roll dispensers are available; they are fully autoclavable and will keep rolls sterile until use; available in blue and white.
